

The Pet Park Project promotes responsible pet ownership with discounted pet adoptions and free spay and neuter services for qualified residences.

Spaying / Neutering your pet is the law. [See the law](#) . Free and discount spay / neuter services are [available here](#) . Find out about [animal licensing](#)

. As of May 2010, it is still only \$15 to license your dog. A great deal in these times where the City is looking to raise revenues. Have your pet licensed before you are hit with a costly fine.

The top reasons to Spay / Neuter are:

- Animals will behave better and are easier to train
- Less likely to bite
- Don't wander off or get lost
- Live healthier lives
- Adult male cats will stop spraying and urine will be less pungent
- Decrease homeless pet population
- It's the law

[Find out more about spaying](#)

We periodically organize and hold adoptions events, like the one we held in February 2010, where pets from the City Shelter were available for adoption. Free spay and neuter services are done by appointment only by calling 1.888.FIX-PETT. The Amanda Foundation provides their Spaymobile, but you must have a family income of \$37,500 or less to qualify. [Visit LA Animal Services to see pets available for adoption](#)

We also teach how to care for community cats with Trap Neuter Release (TNR) experts.
